

## **Learning A-Z Adds New Interactive Student Resources and Teacher Upgrades to Science A-Z**

**Tucson, AZ – Tuesday, March 8, 2016** – Learning A-Z, a leading provider of PreK-6 literacy-focused products and a division of Cambium Learning Group, Inc., is pleased to announce that it has enhanced its Science A-Z product by adding new eResources that students access online, as well as other upgrades for teachers.

Science A-Z is a dynamic online resource that integrates science and reading into one curriculum. New online and mobile formats of Science A-Z unit content — including Nonfiction Books, FOCUS Books, Career Files, Science Diagrams, Multimedia Files, and Comprehension Quizzes — allow students to access developmentally appropriate resources independently or complete teacher-created assignments any time. Resources are available online through the Kids A-Z eLearning portal or via a mobile device through the Kids A-Z mobile app. Additional features include new digital reporting tools for teachers and a newly designed website with optimized navigation.

“Science A-Z’s new interactive eResources allow students to engage with scientific content like never before,” said Bob Holl, president and cofounder of Learning A-Z. “This new access provides teachers more instructional flexibility and improves the school-to-home connection. These new enhancements strengthen our enlightened approach to literacy by allowing kids to think and act like scientists in a whole new way.”

As they were previously, Science A-Z resources are also available in printable and projectable formats. The product also includes an array of hands-on experiments and activities that require only common household items to put science into practice.

Learning A-Z is committed to providing high-quality products that empower teachers to improve learning through an enlightened approach to literacy. To learn more about Science A-Z’s comprehensive instructional tools and student resources, visit [www.sciencea-z.com](http://www.sciencea-z.com).

### **About Learning A-Z**

Learning A-Z is a PreK-6 education technology provider of digitally delivered resources and tools that support instruction and student growth in reading, writing, and science. Founded in 2002, Learning A-Z believes that an enlightened approach to literacy — which starts with reading and writing, but also includes the development of key 21st century skills like communication, creativity, collaboration, and critical thinking — is the foundation to all learning. With a robust library of incredibly effective and flexible curriculum resources, Learning A-Z provides the tools teachers need to deliver personalized instruction for a wide range of student needs and its products include: Reading A-Z, Raz-Kids, Headsprout, Science A-Z, Writing A-Z, Vocabulary A-Z, and ReadyTest A-Z. Learning A-Z’s resources are currently used in more than half the districts across the United States and Canada and in more than 180 countries worldwide. Learning A-Z is a business unit of Cambium Learning Group, Inc. (NASDAQ: ABCD), based in Dallas, Texas. For more information, please visit [www.learninga-z.com](http://www.learninga-z.com).
